From Watanabe Takashi, the well-known director of the popular comedic fantasy *Slayers*, comes the polar opposite of that series -- an arty, atmospheric fright fest!

Mamaro was never like other guys, but he suddenly discovers that he has little in common with humans at all...

Nagi Kirima goes through life with a single purpose: carry on the investigation which has brought her to the Manticore...

Saki is a gifted pianist. Popular and talented, she is being manipulated to become something that she never will be...

This amazing story is told by a fascinating group of characters, a bit from each character's point of view. The captivating design, music, and story will keep fans coming back for subsequent episodes!

Three more episodes of the popular psychotriller! "Until ure in my arms again," "she's so unusual," and "you'll never be young twice."

Includes stunning 5.1 soundtrack, gallery, director and voice actor commentary, and much much more!

**"A bit like Bergman taking a stroll through Twin Peaks while holding hands with William Gibson.. On the edge of horror as well as psychodrama, Boogiepop is a creation that stands alone.." [Fantasia Film Festival]**

**"This anime is a genre-harmonizer: we can't really categorize it as Horror, Science Fiction, or Psychological Drama... This anime is all that in one!" [Protoculture Addicts]**
